

TRAINING AND EDUCATION SOLUTIONS

Counties and municipalities are still developing their “Training and Education” programs as required by HAVA. Counties may have additional funding designated for these two areas. Inclusion Solutions carries both “Hardware” for facilitating training and actual training programs both focused on disability and other areas.

Training: Disability Awareness Kit

- Pollworker training to “simulate” various disabilities with this innovative kit
- “Role Plays” allow pollworkers to test out different or various scenarios so they are prepared for all voters on election day
- Includes Dyslexia/DD simulation, “Arthritis Gloves”, eyewear to allow pollworkers to experience various disabilities, service animal simulation, and reference/training materials
- Eligible for “Training” and/or accessibility grants
- Purchase extra “experience products” for larger trainings
- This is a “must have.” Every county should have at least one for Pollworker Training!

DISTRANKIT\$249.95

DKITXTRA (supplemental experience products)\$25.00

Voting Access Solutions

Advocate Susan Cohen and Voting Access Solutions has worked with advocates and people with disabilities for years. She will create a program designed for your county including training, education, outreach to the disability community, onsite visits and education.
