An Overview of the PakFlatt Franklin 4-Station Voting Booth that is sweeping the nation – the best solution for your county

**The Pakflatt Franklin
4-Station Booth**

inclusion=solutions

- This is the PakFlatt Franklin 4-Station Booth
- It is the best booth we've ever seen – for both accessibility and general purpose
- The Franklin is a perfect booth for your office and is becoming the national standard for counties voting on paper

**The Pakflatt Franklin
4-Station Booth**

inclusion=solutions

- Work with advocates and people with disabilities -- leading provider of accessibility solutions for elections
- Work with 50 states 250 solutions for polling place access
- Assistance with survey review, access solutions, accessible voting accessories and more Provide solutions for all elements of disability access to elections
- Expansion to be not just “access solutions” but solutions for voting that are accessible to all – that’s why we are involved
- That’s why we are partnered

Who We are

inclusion=solutions

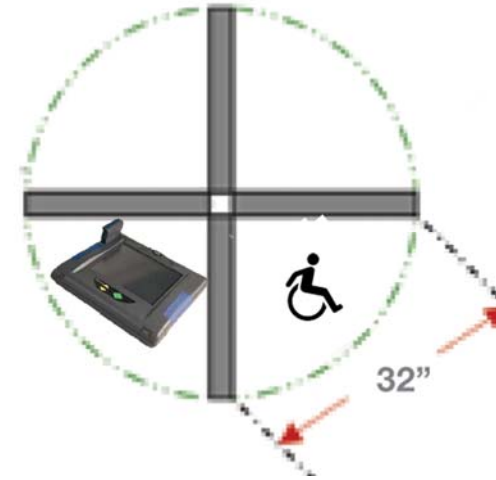

- Solves issues for voters with and without disabilities
 - With the 4 station booth all go to same location – not a “separate” disability booth or system
 - Best for ultimate goal of access
- Non-discriminatory
- Preferred by disability advocates
- Consistent with principle of “universal design”

Benefit:
Non-Discriminatory

inclusion=solutions

Booth Normally Used for Paper Voting – but can also be used with DRE

Compatible with Paper or DRE Voting

inclusion=solutions

- Booth is incredibly durable
- Constructed of “Automotive”-grade aluminum
- Booth is so strong it can support 200 lb person standing on shelf
- It can handle the rigors of many elections and storage
- Booths from 20 years ago are still going strong in Europe

Benefit: Durability

inclusion=solutions

- PakFlatt has spent 20 years perfecting this design
- PakFlatt and Inclusion Solutions have refined the product with further upgrades for the United States Market including:
 - Rigid and reinforced writing shelf
 - Additional durability for U.S. elections
 - Improved components
 - Ease of Setup
 - Upgrades latches, straps, and wheel castors
 - New Color Scheme (Red White and Blue)

**Benefit:
Latest and Greatest**

inclusion=solutions

- Best Warranty in the industry
 - For 3 years we will “swap out” any booths no questions asked (except deliberate damage)
 - Service at National Distribution Center in Virginia
 - Inclusion Solutions is also known for unmatched customer service and responsiveness

Benefit:
Warranty and Service

inclusion=solutions

- Booth stores in a fraction of the space of other booth styles
- Packs into a very small footprint (roughly the same as for a single booth)
- So small one can fit in the back of a car
- Saves warehouse and storage costs/space

Benefit:
Storage and Delivery:
Part 1

inclusion=solutions

Dozens or hundreds of booths can be stored in a small area

50 booths – or 200 voting stations fits in a surprisingly small area

Westchester County, New York stores 837 booths or over 3,330 stations in a limited warehouse area

inclusion=solutions

- Easily Setup
- Setup is in a matter of minutes and possible for even the oldest pollworkers
- Setup is intuitive – but Flyer and Video available

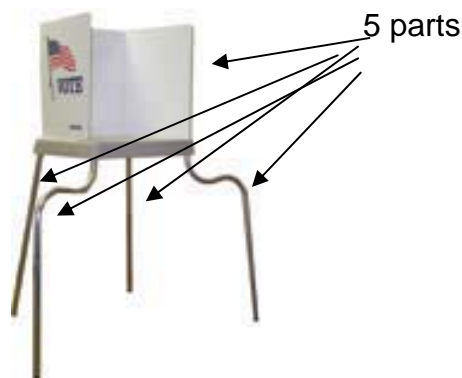

Cape Girardeau, Missouri sets up their 75 booths

inclusion=solutions

Single Booths

- With single booths, legs fall out, or can get misplaced
- Pollworkers and staff frustrated at lost parts
- Different configurations for “regular” and “handicapped” booths
- To create 40 voter stations, you would need 40 booths, each one with five separate pieces (1 table, 4 legs): 200 pieces total

PakFlatt Franklin

- Booths are all single integrated unit
- No pieces to lose
- No more aggravated pollworkers or warehouse staff
- To create 40 voter stations, you would need 10 booths: 10 pieces total!
- 1/20th the total number of parts

Benefit: One Piece Construction

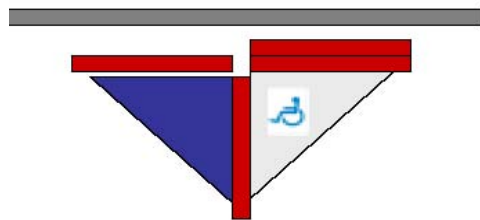

inclusion=solutions

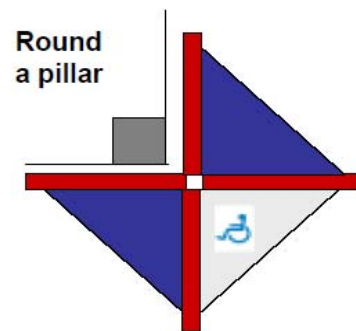

- Precincts nationwide all are configured differently
- But booth can be set up as 4 station, 3 station, or 2 station booth

Set-up

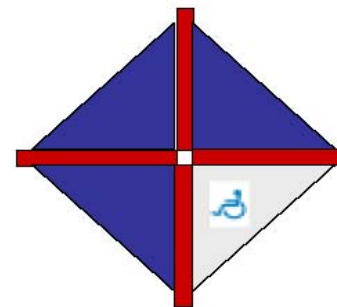

Against a wall

Round a pillar

The booth can be set up in any of the three configurations depending on the space available at the precinct

Free standing

Benefit: Flexibility at Polling Place

inclusion=solutions

Specifications

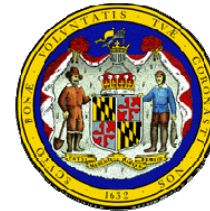

inclusion=solutions

Inclusion Solutions State Contract in Kansas

- State purchased booths for counties
- Many counties participated
- Some counties are only electronic so didn't opt in
- 315 booths total in 2010
- More expected in program renewal in 2011
- Combination of HAVA funds and HHS funds paid for it from state
- State required a 10% matching payment
- Inclusion Solutions drop shipped to all counties

Inclusion Solutions State Contract in Maryland

- State purchased booths for counties
- Counties are starting with purchase of limited units for early/absentee voting as state is still DRE
- Once state goes to paper, statewide implementation
- HHS funds paid for it from state – but full statewide would require more
- Inclusion Solutions drop shipped to all counties
