

Project Description: Please answer the following questions, and copy and use this form for each polling place renovation or group of polling places needing similar minor improvements. Please attach a copy of the Contractor's or Vendor's cost estimate for each project.

1. The priority number assigned to this project is _____.
These improvements will focus on multiple polling locations - as they will target accessibility within the polling place by providing a universally-designed ADA-compliant voting booth at selected locations within the county.
2. Precinct number and name of polling place: _____
Category 2: Providing privacy and Independence to Voters with Disabilities with a
3. Type of project – funding category: universally designed, fully accessible voting booth.
4. ITEMIZED cost of renovation(s) of this/these polling place(s): See supporting vendor quote.
 (Attach extra sheets as necessary.)

5. Contractor's or Vendor's name, address, and telephone number: Inclusion Solutions, LLC
2000 Greenleaf Street, Suite 3; Evanston, IL 60202
 .
847-869-2500 , 847-869-2515 (fax)

6. Is this a temporary or a permanent improvement? (Please check one.)
7. Is there an accessible alternative which will not be used? Yes No .
 If yes, please explain. (Attach extra sheets as necessary.)

8. Describe the project in some detail. (Attach extra sheets or supporting information as necessary.)

The county will be purchasing the 4-Station Free Standing Voter Privacy Booth. This project will increase our accessibility by providing a universally designed voting booth that serves voters with and without disabilities. The booth meets all ADA standards for accessibility. Moreover, it will keep pollworkers from having to make a judgment on whether or not a specific voter should go to the "disabled" or the "standard" voting booth. All voters will be directed to the same booth and can make their own decisions. Ultimately this booth is an important step to providing accessible and non-discriminatory elections to all voters in the county.
