

FuelCall™

Ensuring refueling assistance at the pump

FuelCall™ is a turnkey, safe, simple, and inexpensive solution to assure that all your gas stations comply with the Americans with Disabilities Act (ADA) updated standards.

By offering both push button notification devices and clear signage, drivers with disabilities and those needing assistance are consistently served.

Increase your profit as new customers using FuelCall™ generate C-Store sales. FuelCall™ can help you turn a potential liability into a new source of profit.

FuelCall™ Gas Station Access System

Overview

Our innovative, patented FuelCall™ system includes an ADA-compliant transmitter and chime for gas stations and convenience stores. Signage is customized for your station to display hours when refueling assistance is available. The oversized touchpad is easily installed, and speeds up transactions as customers request assistance from inside their vehicle.

Customers will know you offer refueling assistance by visiting FuelCall.net, our exclusive and convenient online website helps drivers easily locate a FuelCall™ station nearby.

Product Specifications

The FuelCall™ system includes:

- **BigBell Transmitters:** Consistent with ADA law and pass the Department of Justice “fist test”
- **Wireless Chime Receiver:** Easily heard by all employees
- **Steel J-Bars** for proper mounting of BigBell, reinforced to handle abuse
- **Signage** for island cap and roadside marquee
- **Installation hardware**
- **ETL certified** for use at gas stations
- **Training** tools for staff
