

BigBell™ OrderSafe

Curbside Pick Up Alert System

Most states have closed all restaurants except for Curbside and Pick Up. But “Drive-through and curbside pickup” service from restaurants will be allowed to continue.

With **BigBell™ OrderSafe** your customers see the unit outside of your business, showing customized signage, and including an oversized pushbutton that meets ADA standards and can easily and safely be operated by a gloved hand or elbow, reducing exposure. Restaurants can provide takeout or curbside service in a simple, dignified manner consistent with state Executive Order 20-06.

When the current crisis is over, units can be repurposed for “disability access.”

BigBell™ OrderSafe

Overview

A Visible and Safe Method for On-Site Curbside Ordering

The BigBell™ OrderSafe creates a highly visible and obvious notice that your restaurant is open for takeout and curbside delivery. The button is set at the appropriate height for curbside or street access and features both customized signage and the international symbol of access. When a customer approaches your business, he or she will see the BigBell™ OrderSafe outside your entrance and know curbside takeout is available. Pressing the BigBell™ touchpad will trigger an interior chime to alert your employees a customer is outside and wishes to order.

Thousands of BigBell™ Systems are currently in use:

- Libraries
- Police stations
- Restaurants
- Medical facilities
- Property management offices
- Schools
- Hotels
- Commercial & private properties
- Retail stores & other businesses
- Public attractions... and more!

Order now, only 40 in stock!
