

Precinct Infection Protection Kit

Exclusive to Inclusion Solutions and Patent-Pending, the Voter Infection Protection Kit* helps protect your polling places, pollworkers, and voters from the spread of infectious diseases such as the novel coronavirus (COVID-19), H1N1 Flu and more. Nothing protects entirely, but this integrated kit will decrease the risk of transmission for pollworkers and voters at your precincts using either paper ballots, touch screens and/or electronic pollbooks.

This kit is a must-have for every precinct/polling place/election district!

Protects Pollworkers

- Pollworkers are supplied with personal hand sanitizer, mask and protective gloves
- Helps mitigate pollworker absenteeism

Protects Voters

- After marking ballots, voter returns pen or stylus to pollworker who is armed with safety gloves and sanitizing wipes to clean it for the next voter
- Voters hand-marking ballots provided with a clean pen
- Voters using an electronic pollbook and/or voting on touch screen machines are provided with a clean stylus
- All voters are offered hand sanitizer before and after voting
- Sanitary headset covers are provided for voters using headsets

Contents

For Pollworkers

- Disinfectant antibacterial wipes
- 20 pairs of sanitary protective gloves
- Pack of 20 surgical masks for pollworkers to be changed halfway through the day per CDC guidelines
- 10 micro pollworker hand sanitizer bottles

For Voters

- 1 voter handheld sanitizer pump bottle
- 10 isopropyl alcohol screen wipes
- 3 microfiber cloths
- 10 sanitary headset covers
- Instructions on how to disinfect consistent with CDC guidelines, voting system manufacturer recommendations, and health care professional best practices
- Precinct sign displaying protective efforts
- Box, packaging, and instructions included

OPTIONAL

- 20 proprietary Stylus Pens – customized for your e-pollbook or voting system for voters to use without having to contact a potentially germ-infected screen.
